

2017 P2C1 Daily Report

Flight Campaign ID: 2017_P2C1

FBO ID & City: Deadhorse (KSCC) - Deadhorse, AK

Domain: 18

Sites Flown: TOOL

Days left in Domain: 13

Flight Hours: 0.0

Hours until maintenance: 95.67

Date: 2017-07-15

Report Author: John Adler

Pilots: Kyler Dalton, Grant Frost

Flight Crew: John Adler, Heather Rogers, None

Ground/GPS: Michael Wussow

Additional Personnel: None

GPS Instruments:

04 - PASC, Toolik - TOOL

Summary: Today the cloud deck precluded flights at either Domain site. The waveform data from yesterday was finally manually extracted.

Issues/Concerns: The waveform data was filling the C drive again. We have changed the extraction procedure, and believe we have a manual work around. The extract code should be changed to not allow data to be written to the C drive.

Comments: None.

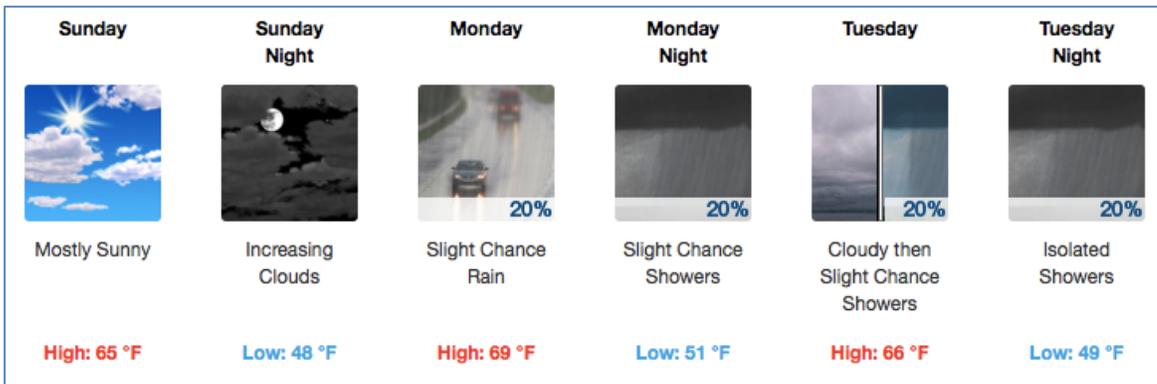

NIS/Lidar Screenshot: None.

Pictures:

Yes, Virginia, there is Starbuck's coffee even above 70°N!

Weather Forecast: Sagwon, AK

Weather Forecast: Barrow, AK
