Summary:

Low clouds prevented flights today. We will transit to D01 a day ahead of schedule to avoid thunderstorms forecast for Friday. No collection days for D02 will be lost because tomorrow was already scheduled as a crew rotation day.

Issues/Concerns:

- The camera continues to experience banding in automatic trigger in ALTM-NAV.
- Following the processing errors that prevented the generation of the SBET for two flights, we are in the process of manually running QA/QC.

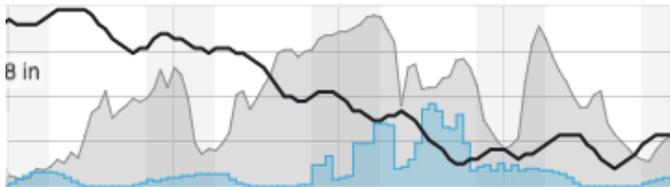

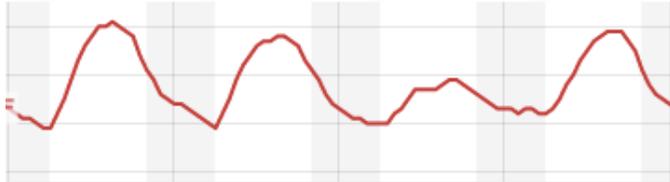

Comments:

- Pilot Justin Eddington rotated in to replace David Hanks.
- Abe Morrison departed for Nashua, NH to begin GPS setup in D01.
- Cam Chapman will rotate in to replace David Gambino tomorrow.
