### Summary

Large thunderstorms across the Alberta/ NW Montana combined with limited customs locations and hours kept the Otter grounded in Kalispell today. As the cold front continues to push the region tomorrow, we expect less thunderstorms but more widespread rain showers, which should be less impactful to the transit.

### Concerns

- QAQC of the 2019061615 flight indicated a potential issue with the waveform to discrete data ratio. This disk set has been set aside and will be made available on the hotel kit once it's set up in Fairbanks.

### Comments

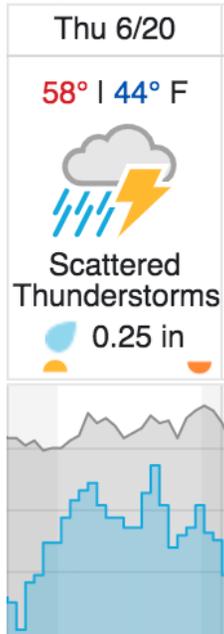

- 2019061715 flight over TEAK will be extracted once the hotel kit is set up in Fairbanks.
- Abe Morrison arrived in Fairbanks.
