Summary

High cirrus layer over SRER forced attention once again back to JORN, finishing off the Priority 1 box before the same high cirrus layer forced collection into yellow conditions.

Concerns

- The SRER GPS is offline and not responding to attempts to connect to it. Unless the unit returns online on its own, no SRER flights will be attempted till D14 staff can investigate on Wednesday.

Comments

- Assuming the JORN P2 flight box is completed tomorrow, crew will look to relocate to an airport closer to the AZ sites. So far, Scottsdale is looking to be the frontrunner, as it's seemingly the only airport within the entire state of Arizona with hangar space available. Move would likely occur later in the week, and would allow the potential to fly Sycamore Creek if conditions presented themselves.
