Summary
Intermittent rain showers and various cloud cover were present today. No flights were conducted. Tropical Storm Claudette did not impact the area here much beyond providing what has been typical weather for our time in D07. Our thoughts go out to those impacted by this severe event in other parts of the Southeast.

The counterclockwise flow of Claudette created interesting cirrus clouds in TN and a few rain showers in the Great Smoky’s today. This was not the case in other areas where unfortunately flooding and tornadoes caused damage.
