Summary
With clear tower cameras and a promising forecast, the crew took off for the SERC site this morning. Due to the location of this site on the opposite side of the DC metro area, and all the flight restrictions that come with that, it took about an hour to transit to the site. On arrival at the site a heavy haze and building low cumulus clouds prevented any collections. The crew did manage to collect the Nominal Runway flight plan at the Winchester airport before they landed.

Concerns
-During the nominal runway collection, the waveform “Buffer Overflow!” failure appeared again.

Comments
-Mitch Haynes departs the crew tomorrow morning.
