Summary
Crew looked for opportunity to get an early initial collect, but clouds remained at and below our flight altitudes all morning, and eventually transitioned to afternoon rain showers and thunderstorms. No collects were attempted.

Concerns
- Payload briefly lost power this afternoon when another hangar tenant unplugged our GPU. FBO staff quickly restored power for us before the UPS was drained and informed all other tenants not to touch our GPU or plug. Signs were also put in place.
- Still working up the Airport Ops chain to get approval for placing our GPS on the field. Approval believed to be imminent, just needing to talk to the right person. Backup remains Ocala FDOT station ~10km away.
